GEORGE BURNHAM, PRESIDENT.
W. J. CHEYNEY, GENERAL MANAGER.
I. W. McELWEE, ASST. TREAS. & SEC.

Philadelphia, 12/3 1892

My dear Sam.

I am in receipt of Church's Report on Green Mt. Mine and an accompanying letter which I wish to keep with the Report and therefore send you the pith in an extract. I have also just sent you a telegram as follows. "Church's approval depends upon result of your developments. Cont[inue] hurry away. I will not be in California until after twentieth." After spending so much time and money on this Green Mt. investigation, I would not allow Shasta Co. or any other interest to interfere with obtaining the information upon which C. makes his report hinge. I have written Morton to close up his new development work as soon as possible after 1st inst. and he can lay on his oars and do some laboratory work until we get there. I must reach there between 20th & 25th — and will advise you definitely in good time - You will need both Transit and Level I think to do the necessary work in Mammoth. I don't know to what extent you have either in combination with the other. All well. In haste Ever Yours W. J. Cheyney
